Subject: Microsoft Settlement

It is my opinion that Microsoft Corporation is a first rate, first class company and the courts and justice system should stop penalizing it. They have been most generous in their settlement offers and contributions to schools. If other companies can't compete, it is not the fault of Microsoft.

They can stop whining. The remaining states in litigation are just trying to grab some "free" money and this should be discouraged. America should be proud of Microsoft and free it of all the legal entanglements! It stands for what USA capitalism is all about!

Ann Mitcham
